

Anabell Blanner, M.S., CHWC, CWPM

**Program Management, Senior Advisor
Cigna/Evernorth
Tampa, Florida**

Anabell joined the enterprise health equity team in December 2022, where she supports executing the enterprise health equity strategy. Anabell's primary focus is to equip and support market-facing staff who address health equity and social determinants of health needs of our clients. Anabell also works on building and enhancing solutions and capabilities to address disparities and social determinants of health. Anabell's tenure with The Cigna Group started in 2013, when she joined the Cigna Sales organization. During this time, she supported the North Florida market, where she managed a complex book of business composed of government and private sector clients. She was accountable for the overall service delivery related to building and implementing health improvement solutions and increasing penetration in Cigna's health advocacy programs and services. Supported by account level consultative analytics, Anabell focused on showcasing overall population health status to steer toward implementation of initiatives that aimed to support clinical intervention and promote health risk reduction. Anabell holds a master of science degree in human performance from Frostburg State University. She holds the Florida 2-15 insurance license, and she is a Certified Wellness Program Manager and Certified Health and Wellness Coach.
